

SCOTLAND'S CIVIC LINKS WITH MALAWI

CONSTITUENCY MAPPING: WESTMINSTER

A briefing for Scottish MP's, mapping the Scotland Malawi Partnership's 1,225 members across Scotland's 59 Westminster constituencies

Updated April 2021

EXECUTIVE SUMMARY

Each year more than 109,000 Scots are involved in a civic link with Malawi. The Scotland Malawi Partnership (SMP) exists as a politically neutral and non-governmental membership network, helping to coordinate, represent and support the work of 1,225 organisations and key individuals linked with Malawi across Scotland.

To do this, and to maintain all-party support for its members' work with Malawi, the SMP helps its members connect with their local MP, and briefs Scottish MPs on Malawi links in their constituency.

Every single constituency in Scotland has a number of civic partnerships with Malawi.

This document gives examples of Malawi links in each of Scotland's 59 Westminster constituencies. The links contained in this report are just a fraction of all the Malawi links across Scotland. Full details can be found at www.scotland-malawipartnership.org.

ALL-PARTY LEADERS' FOREWORD

As a symbol of the continuing all-party support for Scotland's friendship with Malawi, we are delighted to stand with the Leaders of all political parties in the Scottish Parliament, as we launch this updated report celebrating 1,200+ members of the Scotland Malawi Partnership.

Nicola Sturgeon MSP, Leader, Scottish National Party and First Minister of Scotland:

"The links between Scotland and Malawi are strong and enduring. Even in this past year, which has presented us with difficulties we could scarcely have imagined, our friendship continues to grow. The work that the Scotland Malawi Partnership and the many organisations the length and breadth of Scotland do to support and nurture these links is extremely welcome and I am proud that the Scottish Government can continue to fund these efforts. I hope this report inspires many more communities to take an interest in the relationship between Scotland and Malawi, so we can sustain it for many years to come."

Douglas Ross MP, Leader, Scottish Conservative Party:

"I am delighted to welcome the publication of this report. The links between Scotland and Malawi are deep, and it's right we celebrate them. This report stands as a testimony to that – highlighting the civic partnerships which exist across each Holyrood constituency and region. At heart, this is about friendship. Not just between governments, but between two peoples. Each year thousands of Scots and Malawians stand side-by-side and work together to achieve common goals. We should be proud of these bonds and I congratulate the Scotland Malawi Partnership for everything they do to further this cause. The Scottish Conservatives are deeply committed to strengthening Scotland's partnership with Malawi for the benefit of both our countries."

Anas Sarwar MSP, Leader, Scottish Labour Party:

"Our links with Malawi continue to thrive and flourish, and are a testament to the efforts of those who have worked hard to maintain this enduring friendship. The community of over 300,000 Scots and Malawians has helped deliver benefits and real change where it's needed - across communities, in trade, business, medicine, education and tourism. We should be proud of our work together and continue to build on the unity between our two nations."

Alex Cole-Hamilton MSP, Leader, Scottish Liberal Democrats:

"It is truly impressive that over one thousand Scottish organisations and key individuals have active links with Malawi. Through education, communication and engagement we are forging a lasting relationship with this fascinating and creative country at the heart of Africa.

Together Scotland and Malawi can grow and prosper together. I am particularly pleased to see the deep links between Malawi and my constituency, where there are memberships from groups as wide ranging as the RZSS Edinburgh Zoo and several local primary schools."

Patrick Harvie MSP, Leader, Scottish Green Party:

"I am delighted to see Scotland's long-standing friendship with Malawi continue to grow from strength to strength. More and more communities the length and breadth of Scotland are now involved in the people-to-people partnerships.

"As this report highlights, almost every section of Scottish civic life is now involved with Malawi in some way, with record numbers of community groups, schools, universities and hospitals actively engaged.

"This represents the best of Scottish internationalism, which will contribute to sustainable development and to global challenges such as equality and human rights. I congratulate the Scotland Malawi Partnership for its work coordinating

Any Scottish organisation or individual with a link to Malawi is able to join the Scotland Malawi Partnership. The Partnership exists to help coordinate, support and represent the work of its 1,225 members:

SCOTLAND'S LINKS WITH MALAWI

Connecting SMP Members with their local MP

The Scotland Malawi Partnership is politically neutral and non-governmental. However, in helping coordinate, represent and support our members' work with Malawi, it is important we connect effectively with the governments and parliaments of Scotland, the UK and Malawi. We help to build and maintain strong all-party parliamentary support for Scotland's friendship with Malawi in all three parliaments and are always keen to help connect Members of Parliament with SMP members in their constituency.

To this end, we publish details of how Scotland's links with Malawi are spread across Scotland and are excited to confirm in April 2021 that **there are Malawi links in every Westminster constituency in Scotland.**

This document gives examples of Malawi links, constituency by constituency, in order to help our members connect with their local MP, and to keep MPs briefed on local links with Malawi. **The links contained in this report are just a fraction of all the Malawi links across Scotland.**

*There are Malawi links
in every constituency of
Scotland*

About the Scotland Malawi Partnership

The Scotland Malawi Partnership (SMP) is the national civil society network coordinating, representing and supporting the people-to-people links between our two nations. We represent a community of 109,000 Scots with active links to Malawi.

We have more than **1,225 member organisations** and key individuals, including half of Scotland's local authorities, every Scottish university and most of its colleges, 250 primary and secondary schools, dozens of different churches and faith-based groups, hospitals, businesses, charities and NGOs, and a wide range of grass-root community-based organisations. Our work permeates almost all aspects of Scottish civil society.

We exist to **inspire the people and organisations of Scotland** to be involved with Malawi in an informed, coordinated and effective way for the benefit of both nations. We do this by providing a forum where ideas, activities and information can be shared on our website, through our online mapping tool and through regular forums, training events and stakeholder meetings.

We believe the hundreds of partnerships which unite Scotland and Malawi represent an innovative new approach to international development. This is an approach based not on 'donors' and 'recipients' but on long-standing, mutually-beneficial

*Almost half of all Scots
personally know someone
with a link to Malawi*

community-to-community, family-to-family and people-to-people links, each on its own quite modest in scale but, together, a formidable force for progressive change.

Scale and Impact of Malawi links

In 2018, the University of Edinburgh published an updated [research paper](#) which found that an estimated:

- **109,000+ Scots are actively involved** in links with Malawi;
- **208,000+ Malawians are actively involved** in links with Scotland;
- **2.9 million Malawians directly benefit** from SMP members' work each year.
- **SMP members contribute more than £49 million** in finance and in-kind inputs to their Malawi links.

Separately, the SMP also commissioned a [study](#), conducted by a University of Glasgow researcher, of 449 randomly selected Scots which found that:

- **44% personally know someone** actively involved in a link with Malawi;
- **77% are in favour** of Scotland's links with Malawi (56% "strongly" in favour, and only 1.5% are opposed)

MALAWI ALL-PARTY GROUP

The UK Parliament's All-Party Parliamentary Group (APPG) for Malawi

The Scotland Malawi Partnership is delighted to offer secretariat support for the UK Parliament's All-Party Parliamentary Group (APPG) for Malawi, as it does for the Scottish Parliament's Malawi Cross Party Group.

The Malawi APPG exists to promote understanding and awareness among parliamentarians, positive relations between our countries, and provide a forum for discussion on relevant issues affecting politics, society, culture and the economy in Malawi.

It brings together MPs and Peers from across the UK with a particular interest in UK-Malawi relations.

The Group was founded on the 29th November 2017, growing out of an earlier APPG for Malawi and Zambia. Following the December 2019 election, **the APPG will meet again in February 2020 to be formally reconstituted**, we invite all MPs and Peers to be involved in the group.

In the last Parliament the Group met with both the President and Vice-President of Malawi, and co-authored a major joint all-party parliamentary publication with the APPG for Africa and the APPG for Migration, looking at the way those in Africa are treated as they apply for UK visas: www.tinyurl.com/AfricaVisa.

49 MPs and Peers, mostly from Scotland, were listed as members of the Malawi APPG in the 2017-2019 Parliament.

Malawi APPG meetings to date have included:

- Inaugural meeting and AGM, 29th November 2017
- Meeting with the Chief Executive of CDC and Chief Executive of Mzuzu Coffee, 7th March 2018. A joint meeting with the Scottish Parliament's Malawi Cross Party Group (this was the first time the two Parliaments have been live linked in this way).
- Meeting with the President of Malawi, 17th April 2018
- Meeting with the Vice-President of Malawi, 15th October 2018
- AGM, 10th December 2018
- Meeting taking evidence on UK visa processes for those visiting from Africa, 22nd January 2019.
- Meeting with Immigration Minister, Rt Hon Caroline Nokes MP, 13th February 2019
- Meeting with WaterAid Malawi, 18th March 2019
- Meeting with Independent Chief Inspector for Borders and Immigration 1st April 2019
- Meeting launching the joint-APPG visa report, with Minister Nokes and the Chairs of the Malawi, Africa and Migration APPGs, 16th July 2019.

More information about the APPG's work and meetings can be found at:
