

## Just Trading Scotland

Just Trading Scotland (JTS) imports fairly traded Kilombero rice from Karonga in Malawi.

They aim to provide a market for smallholder farmers who are part of a national farmers' association. They are willing to make the changes necessary to turn their farms into effective small businesses, *if* they know they will be able to sell at a fair price.

Scottish schools, universities, colleges, churches, fair trade groups and shops have contributed hugely to selling over 130 tonnes to date.

Just Trading Scotland have also received a Scottish government grant to help the farmers improve the quality and yields of the rice.
